Message

I'm following projects such as Atlantic Coast Pipeline and completion of 540 around Raleigh and appalled that the Liberal Left and Dems are working hard to stop both projects, in the name of protecting the poor and Native Americans. We are all spending a lot of time in traffic jams in South Raleigh, while the delays continue in building 540 extension. This is exactly what Trump has been talking about - if you can't make a decision to build something in 2 years, then something is wrong with our system. Now I'm reading about the Atlantic Coast Pipeline, and here we go again. I'm reading that the Left is claiming it will hurt the poor and Native Americans and it is being delayed - seriously?? We use inefficient electric heat in our Raleigh home, because natural gas is not available in our area, which costs a fortune to keep our house halfway warm. We frequently visit a home in Warren County - very poor if you don't already know that and folks in that area have to have expensive Propane delivered or pay for inefficient electric heat. There are also a lot of people in the area that burn wood for heat - now that is really good for the environment?? Apparently it is ok with the Dems to make people suffer for their irrational environmental concerns that don't even make sense when the facts are taken into account.

How much longer are you going to hold back progress of our great state and make the folks you are claiming to protect suffer, before you start actually working for us?

Sincerely,  
A 30 year Army Veteran and hard working American
